

## Approved Products Register - Potable Water

2nd March 2016 - Version 8

THE USE OF ANY APPROVED PRODUCT IS TO BE STRICTLY IN ACCORDANCE WITH THE REQUIREMENTS OF THE FNQROC DEVELOPMENT MANUAL AND THE MANUFACTURER'S RECOMMENDATIONS

Item	Specified Requirements	Authorised Manufacturer (Supplier)	Trade Name	Size Range	Comments	Internal Reference
GRP Pipes	Min. PN16	Iplex	Flowtite GRP Pipes		For pressure and non-pressure applications. Specific CRC Water and Waste approval required for each project	1655682
PVC-O	PN16, Min. SN 10000	Iplex	Apollo Blue Premium	DN100 to DN375	For pressure applications. Installation to be in accordance with manufacturer's recommendations.	1655952
DI Fittings	PN16	Vinidex	Superlink II Series	DN100 to DN250	Installation to be in accordance with manufacturer's recommendations	1655687
POLCO DTLS-223 Polyurea Liner	Authorised applicator is Coat Tech, 92 Lyons St Portsmith, Qld 4870	Manufacturer - Eteco In Supplier - Coat Tech			Maximum Exposure limits as per AS/NZS 4020:2005 test certificate, Report ID 38502 dated 11/7/2008. Application of the product is to be in accordance with manufacturers specifications. Authorised applicator is Coat Tech, 92 Lyons Street Portsmith Qld 4870. Product warranties are to be honoured by the applicator.	2188745
Metal Seated and Resilient Seated Gate Valves	PN16 applications with AS/NZS 4087 Flange connections	Pentair Water Solutions		DN80 to DN750 in accordance with Tables 1 and 2 (refer to #4609719)	Installation to be in accordance with manufacturer's recommendations	4748745

## Approved Products Register - Wastewater

2nd March 2016 - Version 8

THE USE OF ANY APPROVED PRODUCT IS TO BE STRICTLY IN ACCORDANCE WITH THE REQUIREMENTS OF THE FNQROC DEVELOPMENT MANUAL AND THE MANUFACTURER'S RECOMMENDATIONS

Item	Specified Requirements	Authorised Manufacturer (Supplier)	Trade Name	Size Range	Comments	Internal Reference
GRP Pipes	Min. PN9	Iplex	Flowtite GRP Pipes		For pressure and non-pressure applications. Specific CRC Water and Waste approval required for each project	1655682
PP Pipe	SN10, grey	Iplex	SewerMAX	DN225 to DN600	For use in gravity sewer main only. Installation to be in accordance with manufacturer's recommendations.	1655953, 2058669
	SN10, dark grey outside, light grey inside	Vinidex	SewerPRO	DN150 to DN900	For use in gravity sewer main only. Installation to be in accordance with manufacturer's recommendations.	1655692
DI Fittings	PN16	Vinidex	Superlink II Series	DN100 to DN250	Installation to be in accordance with manufacturer's recommendations	1655687
PP Fittings		Vinidex	SewerPRO		For use in gravity sewer main only. Installation to be in accordance with manufacturer's recommendations.	1655692
Metal-Banded Flexible Couplings		Hepworth	Flex-seal			
PP Inspection Chamber	DN600	Iplex	EZIpit		Installation to be in accordance with manufacturer's recommendations	1655955
PE Manhole <b>Approval Withdrawn 28/4/2009</b>	DN1050	Smartstream Technology	Smart Pit		Limited to an installation depth of 4.0m from finished surface level to downstream pipe invert level. Use of step irons not permitted. Smartstream glued coupling arrangement only. Hepworth Supersleve couplings not approved for use. Specific CRC Water and Waste approval required for each project	<del>1645662, 1768139</del>
PP Manhole	DN1000	Iplex	Tegra 1000		Installation to be in accordance with manufacturer's recommendations	1655955
PE Terminal Elbow		Smartstream Technology	J Pit	DN150 or DN225	Installation to be in accordance with manufacturer's recommendations	
Polypropylene Sewer Maintenance Shaft - Triple and Single Entry.	As per WSAA product appraisal PA 09/08	Manufacturer: BT Bautechnik Impex GmBH + Co Supplier: Sewer Maintenance Shaft Pty Ltd	SMS	DN300 x DN150 DN375 x DN150	Design and installation shall be in accordance with the FNQROC Development Manual. In particular, note the specific requirements detailed in Section D7 with regards to the use of maintenance shafts. Shafts are not approved for use in water charged ground. No more than 2 inlets shall be connected in accordance with WSAA requirements. Unused inlets are to be plugged in accordance with manufactures specifications. Installation requirements specific to the maintenance shaft are to be in to be in accordance to the manufacturers specifications. The DN300 x DN150 Maintenance Shaft products are to be supplied with a 300mm riser.	3018418
PVC-U Straight Through Maintenance Shaft	As per WSAA product appraisal PA 09/08	Manufacturer: BT Bautechnik Impex GmBH + Co Supplier: Sewer Maintenance Shaft Pty Ltd	SMS	DN225	Design and installation shall be in accordance with the FNQROC Development Manual. In particular, note the specific requirements detailed in Section D7 with regards to the use of maintenance shafts. Shafts are not approved for use in water charged ground. No more than 2 inlets shall be connected in accordance with WSAA requirements. Unused inlets are to be plugged in accordance with manufactures specifications. Installation requirements specific to the maintenance shaft are to be in to be in accordance to the manufacturers specifications.	3018418
