

NOTES

1. For location and species of trees refer project drawings.
2. Extent of Structural soils or rootcell system will vary according to tree species and planting conditions (refer to manufacturer for recommendations).
3. Excavated planting hole shall allow for a minimum 100mm clearance around the rootball. Base of hole to be ripped to 150mm depth to promote drainage.
4. Mulch to be 75mm thick in paved footpaths.
5. Irrigation may be required.
