

ELEVATION

NOTES

1. Posts & rails to be Ø100, Ø125, Ø145 or Ø150 pine slab logs treated to Hazard Level H4. H5 if timber used in wet areas.
2. In sloping terrain posts shall remain vertical & rails shall be parallel with ground surface.
3. Alternate post and rail fixing details to be approved by Council.
4. All dimensions are in millimetres.
5. Recycled plastic materials are the preferred alternative to treated timber.
6. Alternative materials to be approved by Council prior to construction.
7. CCA treated timbers are not to be used for any element of construction shown on this drawing. ACQ, Copper Azole, LOSP or another Council approved alternative timber treatment will be considered, so long as each individual piece of timber is clearly marked to show the treatment type. In this instance, unless otherwise approved by Council, all above ground or exposed timbers shall be clearly marked by burn branding with text a minimum of 15mm in height so as to ensure the treatment type can be readily identified for the anticipated life of the timber.
8. Proprietary removable Galvanised Steel bollards with locking mechanism (powder coated or painted safety yellow with reflective tape) for park access to be approved by Local Authority and installed as per manufacturers specifications.
