

QUEENSLAND RECONSTRUCTION AUTHORITY

FNQROC Presentation

What is Recovery?

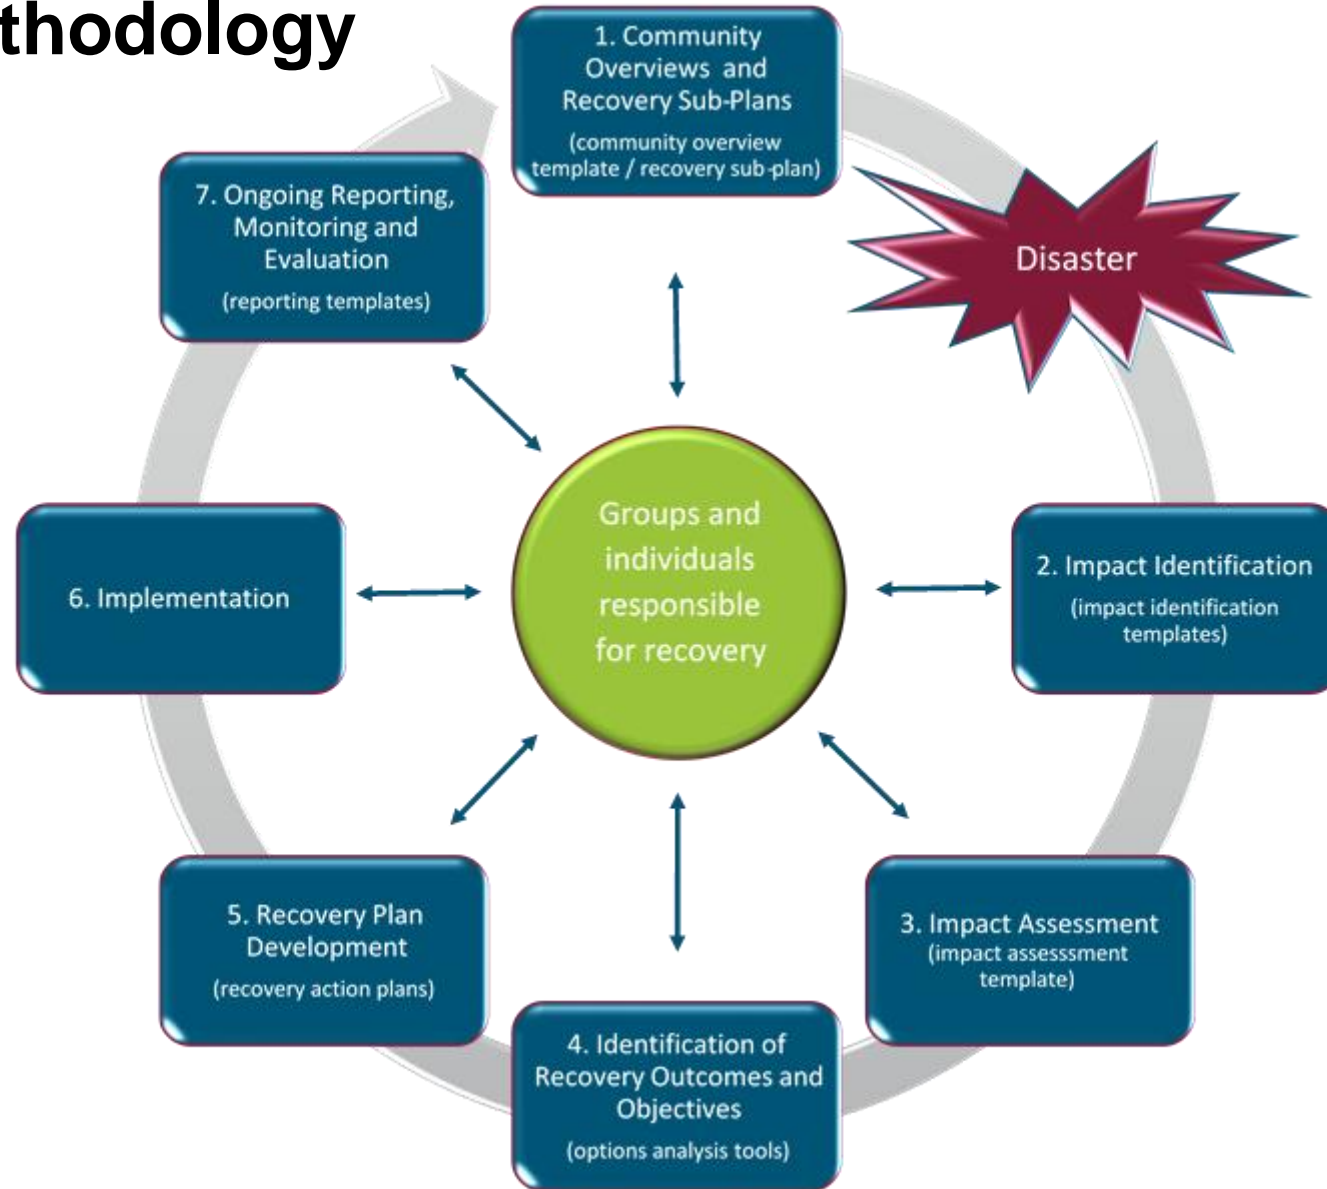

- **Recovery** is *the coordinated process of supporting disaster-affected communities' psychosocial (emotional and social), and physical well-being; reconstruction of physical infrastructure; and economic and environmental restoration (including regeneration of the natural environment, associated infrastructure and heritage sites and structures, and the management of pollution and contamination)* (Queensland Recovery Plan)
- **Recovered** is *being able to lead a life that individuals and communities value living, even if it is different to the life they were living before the disaster event.* (Australian Institute of Disaster Resilience)

Governance Arrangements

-

Recovery planning methodology

QRA's assistance

- Provision of templates to capture impacts, impact assessment and recovery outcomes.
- Workshops to help facilitate the capture of impacts, impact assessment and recovery outcomes.
- Assistance with the development of event specific recovery plan.

Recovery Action Table

Recovery Action Plan Template

What happened and where has it happened?	How could it affect the community (ie, what is the consequence)?	What is the desired recovery objective and outcome?	What does success look like?	What are the tasks required to meet the objectives and outcomes?	Who is required to assist? (functional recovery areas)	When will it happen? (short, medium, long, ongoing)

Current Situation

- Finalising who will have responsibility for the State Recovery Plan and how it will:
 - address functional or recovery areas or be restricted to economic considerations.
 - how / if the local event specific plans will be included in the State recovery plan.
- Local impacts and recovery objectives are importantly locally and capturing will assist with informing state activities.
- Regional Recovery Plans.
